

Major Career Roles

CEO and Chair, Suez
Chair, Continental AG
CEO, Dormakaba
CEO, Siemens Mobility

Other Career Highlights

Member of Shareholders' Committee, Henkel AG
Trustee, St Gallen University Symposium
Board member, Boeing
Board member, ITT Inc.

Sabrina Soussan is a globally respected industrial leader with a distinguished CEO and board career spanning industrials, mobility, infrastructure, and services sectors in complex, regulated environments. She is currently Chair of Continental AG and sits on the Shareholders' Committee of Henkel AG, on the Board of Directors of Stadler AG and the Board of Trustees for the St Gallen University Symposium.

Until February 2025, Sabrina was CEO and Chair of Suez, leading the global water and waste services group in serving municipalities and industrial clients across international markets. Prior to this, she was CEO of Dormakaba, a Swiss-listed global leader in security and access solutions, where she drove strategic growth in highly regulated, safety-critical environments.

Her earlier executive career was defined by over two decades at Siemens, where she held multiple senior leadership roles. From 2017 to 2020, she served as CEO of Siemens Mobility, a leading provider of rolling-stock and transportation solutions, spearheading major mobility and digitalisation initiatives. She joined Siemens Mobility in 2013 after holding leadership positions at Siemens Building Technologies in Switzerland and managing responsibilities in Siemens' Automotive Division in Germany. Sabrina began her career in the automotive industry with Renault in France.

Alongside her executive track record, she has held significant non-executive roles, including as a member of the Board of Directors of Boeing, where she was the first and only European appointee, and as a director at ITT Inc. (2018–2023).

Sabrina Soussan brings deep cross-sector expertise in:

- Infrastructure and environmental services – leading global platforms delivering water, waste, and sustainability solutions
- Industrial and mobility technologies – transforming transportation and automation businesses across international markets
- Security and access systems – scaling safety-critical solutions for global commercial and industrial clients
- Board-level governance – shaping strategy on complex, regulated sectors for multinational listed organisations

Sabrina holds a Master's degree in Mechanical and Aeronautical Engineering from E.N.S.M.A (Poitiers, France) and an MBA from I.A.E Poitiers and University of Dublin, Ireland. In 2022, she was appointed Knight of the French National Order of Merit.
